Girl i learnt my lesson

Baby i miss you

Baby i want you

Baby i need you

Please don't go (x2)

(verse1)

Remember all the nights in my bed and all the love that
we made, we made, we made, (we made),

Remember all the promises said, baby your word you
gave, you gave, you gave, (you gave),

Girl tell me why you cryin and you wanna leave?(wanna
leave)

Don't listen to the rumors that you hear on the streets,

I am yours (I am yours)

Look at me (look at me)

If you leave (If you leave)

Than you'll have more than pain,

Like a drain(Like a drain)

In my heart (In my heart)

No more games

Don't let the rain fall down

Put out this flame (Put out this flame)

Put out this flame (Put out this flame)

Put out this flame (Put out this flame)

Don't let the rain come down

Put out this flame (Put out this flame)

Put out this flame (Put out this flame)

Put out this flame (Put out this flame)

Don't let the rain come down

Put out this flame
