I knew it from the first time you said hello, that you
were special,
We come from two different worlds' girl I know, but just
cuz I'm hood,
It don't mean that im out here trying to get with every
girl
Im just looking for that someone who I could give the
world
Please don't judge me baby, look in to my eyes
I ain't playing with you nooo
Girl I got to get you.

Baby your heart is safe with me, (oh yes it is)
Let me show you what love suppose to be,
Girl I wanna to give you, all of this streetlove
I wanna give it, all of this streetlove baby
Your heart is safe with me
Take all of my streetlove

Baby I don't wanna to have to let go, just let me hold
you
Your homies say im no good im ghetto
but just cuz im hood,
it don't mean that im out here trying to get with every
girl
I just looking for the someone who I could give the
world
please don't judge me baby look in to my eyes
I ain't playing with you, noooo girl I got to getch oooo

Baby your heart is safe with me (baby your heart is safe
with me),
let me show you what love suppose to be (I want to
show you love, I want to show you love),
girl I want to give you all of this streetlove (every little
bit of it)

Baby don't you hold back don't you want to give it

(8x)

[Breakdown:]

Just want to give you all my love
This is how I feel about you
Even though we come from two different worlds
There's something real about you
Girl, don't be scared to follow your heart
I'll never ever hurt you, you deserve me

[Chorus 2X]

Baby your heart is safe with, let me show you what love
suppose to be (I girl I just wanna give you),
girl I want to give you all of this streetlove
(every little bit of it)
all of this streetlove baby your heart is safe with me
take all of my streetlove
