"Young & Restless"

Visit "[Young & Restless](#)" on MotoLyrics.com

Leave me breathless, I won't let this feeling slip away
Body so electric girl, you show me with your eyes
The sweat on your neck girl
Means your temperature is starting to rise

Shoulder lean, dippin low,
Take it fast, take it low
I wanna see you move
I know we're young and probably move
The only thing I see is you
So don't be shy

Let your head down, let your head down
It's the 2 of us, so tonight girl let's pretend
There's no one else around
Let that music move you, just like it move me
Young & restless, young & restless
Young & restless with you girl I'll stay
Young & restless.
