Life begins at thirty
So I have been told
I can easily believe it
The way I'm getting on
Yeh I'm getting on
You hang around backstreet bars
For what you wish you knew
You say give me something cheap
Something I won't want to keep
Love's not everything
I was just hoping you might stay
Hell it's hard to say
I was hoping you might stick around
Until the morning
You've heard it all before kid
I'll say it all again
And I'm going to live a lush life

An ask for nothing much life
Love's not everything
I was just hoping you might stay
Hell it's hard to say
I was hoping you might stick around
If you were doing nothing
Fool for love...
I was just hoping you might stay
But it's not easy to say
Hey...you doing nothing?
Fool for love
And it's not only the lonely
Not only the lonely
Fall for love
