(All around the world, girls, all around the world)

I just wanna be your man

(This goes out to girls all around the world)

So I

(This)

Gotta make you understand girl

It's the way you flip your hair

And those stylish clothes you wear

When you walk into the room

All my partners stopped and stared at you

(All around the world, girls all around the world)

(This goes out to girls all around the world)

But they just wanna use you up

(All around the world)

(This goes out to girls all around the world)

It's the tattoo on your back

And that brand new Louis bag

With them matchin' high heels

I can't help this girl's swag's the truth

(All around the world, girls all around the world)

(This goes out to girls all around the world)

And I just want to give her love, oh

(All around the world)

(This goes out to girls all around the world)

Girl I can't get you off my mind

You're like my favorite song

Just wanna turn you on

And rock you all night long

~Cause I

(All around the world, girls all around the world)

Oh I

(This goes out to girls all around the world)

I just wanna be your man

I just wanna be your man

(All around the world)

(This goes out to girls all around the world)

Just to smell your perfume  
Got me goin' out my head  
Seen 'em comin', seen 'em goin'  
Never met someone as bad as you

(All around the world, girls all around the world)  
(This goes out to girls all around the world)  
Since you're my favorite girl, yeah  
(All around the world)  
Yeah  
(This goes out to girls all around the world)

I know just what you need  
To make you look complete  
This platinum wedding ring  
'Cause ooh I got a thing for you

(All around the world, girls all around the world)  
(This goes out to girls all around the world)  
I'ma take you around the world  
(All around the world)  
Oh baby  
(This goes out to girls all around the world)

Girl I can't get you off my mind  
You're like my favorite song  
Just wanna turn you on  
And rock you all night long

~Cause I  
(All around the world, girls all around the world)  
Oh I  
(This goes out to girls all around the world)  
I just wanna be your man  
I just wanna be your man  
(All around the world)  
(This goes out to girls all around the world)

Ha ha, yeah!  
Okay, I'm thinkin' of a master plan  
Nah, I'm lyin', shorty on my mind  
Shorty like a fryin' pan  
And I ain't got nothin' but sweat inside my hands

So I dig into my pocket, all my money is spent  
(All around the world, girls all around the world)  
But I don't need a cent 'cause shorty priceless  
(This goes out to girls all around the world)  
I tell it like this, I been all around the world  
So baby I can take you all around the world

I roll up, this is a hold up, it's young money man  
Shorty made me smile when ain't a damn thing funny  
Heh, but still don't nothin' move but the money  
So baby if I move then we move with the money

(All around the world, girls all around the world)  
Which is my favorite dish  
(This goes out to girls all around the world)  
But if I taste you that'll probably switch  
Heh, and then we would probably switch  
(All around the world)  
Now I'm walking up the street, whistling this  
(This goes out to girls all around the world)

Girl I can't get you off my mind  
You're like my favorite song  
Just wanna turn you on  
And rock you all night long

~Cause I  
(All around the world, girls all around the world)  
Oh I  
(This goes out to girls all around the world)  
I just wanna be your man  
I just wanna be your man  
(All around the world)  
(This goes out to girls all around the world)

Can't get you off my mind  
You're like my favorite song  
Just wanna turn you on  
And rock you all night long

~Cause I  
(All around the world, girls all around the world)  
Oh I  
(This goes out to girls all around the world)  
I just wanna be your man  
I just wanna be your man  
(All around the world)  
(This goes out to girls all around the world)
