Yeah, cash, money, Dawg Child  
Wit' ya man, Lloyd  
Yeah, yeah  
Okay, Dawg Child

I know it's hot 'cause my guru already laced it  
Ain't no replacement, it's hot up in the basement  
See this the south comin' crunker than your average  
Makes you wanna grab it 'cause you gotta have it

See Dawg Child will make it very spiced and tasty  
You really can't help but to move your body crazy  
You feelin' somethin' and I know you just can't help it  
And I know what you are relieving

That's why  
You'll never ever meet notha playa  
As fly  
As the one with the dubs on the slant  
That's right  
So pretty mama, please don't let your chance  
Pass by  
'Cause shawty you just don't know

That I  
Have never ever met notha girl  
That fine  
Starin' so hard I didn't even see the  
Stop sign  
Hit the ground so hard, it made me  
Realize  
That you need to get with me

Once you get to know me  
You will put me, you are in a trance, baby  
I promise you that ain't know no one like me  
That puts you in a trance like me

You keep on wantin' more and more to please me  
You are in a trance, baby  
You won't stop thinkin' what has come over me  
You are in a trance, crazy

Trance  
I'll put you in a trance  
I'll make you wanna dance  
I'll leave you in a trance  
Trance

Now I know that you are used to somethin' basic  
Somethin' new, just face it  
That's how your time is wasted  
And you should do whatever I do  
Baby, I can show you  
How to make your dreams true

And that's why I look dead into your eyes  
And see that you been searchin'  
'Cause you are tired of hurtin'  
So baby, won't you just come and roll wit' me  
I got all that you need  
Put your trust in me

That's why  
You'll never ever meet anotha playa  
As fly  
As the one with the dubbz on the slant  
That's right  
So girl, don't let your chance  
Pass by  
'Cause shawty you just don't know

That I  
I never ever met anotha girl  
That fine  
Starin' so hard I didn't even see the  
Stop sign  
Hit the ground so hard, it made me  
Realize  
You need to be with me

Once you get to know me  
You will put me, you are in a trance, baby  
I promise you that ain't know no one like me  
That puts you in a trance like me

You keep on wantin' more and more to please me  
You are in a trance, baby  
You won't stop thinkin' what has come over me  
You are in a trance, crazy

Trance  
I'll put you in a trance

I'll make you wanna dance  
I'll leave you in a trance  
Trance

Now when I kick the game, I get the dames up in a  
trance  
I'm in the Illarangers, Lil' Wayne, me and my man  
Lloyd, holla at cha boi boi, "Who mami wit'?"  
She fell in love wit' Weezy, snap outta it

I'll never misplace her, erase her, so I gotta replace her  
It's my roll to say that, gotta get 'em Maybach, way  
back  
Because my backseat is bigger than a room  
Where you stay at I don't play dat, I'ma balla, baby

Once you get to know me  
You will put me, you are in a trance, baby  
I promise you that ain't know no one like me  
That puts you in a trance like me

You keep on wantin' more and more to please me  
You are in a trance, baby  
You won't stop thinkin' what has come over me  
You are in a trance, crazy

Once you get to know me  
You will put me, you are in a trance, baby  
I promise you that ain't know no one like me  
That puts you in a trance like me

You keep on wantin' more and more to please me  
You are in a trance, baby  
You won't stop thinkin' what has come over me  
You are in a trance, crazy

Trance  
I'll put you in a trance  
I'll make you wanna dance  
I'll leave you in a trance  
Trance

Trance  
I'll put you in a trance  
I'll make you wanna dance  
I'll leave you in a trance  
Trance
