every time it's the same old thing,  
you lead me out like a beauty queen.  
i don't mind if you play your game.  
cuz i know i'll make you scream my name.  
scream my name, scream my name  
scream my name, scream my name.

in the club doin' my thang,  
at the bar just sippin a drink,  
you walked by in tight ass jeans,  
gave me and my homies a wink.  
when i see that booty poppin out  
it do somethin strange to me.  
like a full boned wear wolf,  
just tell'em a 3az,  
now i can tell by your attitude.  
that you know your that your fine as hell  
the way you walk the way you talk.  
it's like you got some goods yourself,  
i respect your hustle girl, but don't try  
to hustle me.  
cuz imma straight pimp with a gangsta limp  
and it runs in the family.

and the way your shaking it at the club  
try to make a brother fall in love.  
you dirty dancing me all night long,  
then you leave me hanging girl your wrong.

every time it's the same old thing,  
you lead me out like a beauty queen.  
i don't mind if you play your game.  
cuz i know i'll make you scream my name.  
scream my name, scream my name  
scream my name, scream my name.

girl your hot, your body's on fuego.  
we fit together like if we was two lego's.

we on the floor and we grind to the beat.  
i love the way your body's moving when its grindin on  
me.

we got the drinks by the dozen and nobody's coming.  
i don't care all i want is your lovin  
im a sex machine, and girl you turn me on.  
i get you on till the break of dawn.

and the way your shaking it at the club  
try to make a brother fall in love.  
you dirty dancing me all night long,  
then you leave me hanging girl your wrong.

every time it's the same old thing,  
you lead me out like a beauty queen.  
i don't mind if you play your game.  
cuz i'm gonna make you, i gonna i'll make you  
i said im gonna make you, scream my name.

you know i want yo body, yo body wants me too.  
you say im acting naughty but girl your naughty too.  
your girls wanna leave i hear them calling you.  
it's either them or me, girl who you wanna do

girl come with me lets play the scene.  
we can have a fantasy  
come with me lets play the scene.  
you can have your fantasy with me.

you know i want yo body yo body wants me too.  
you say im acting naughty but girl your naughty too.  
your friends they wanna leave girl there calling you.  
its either them or me, girl who you wanna do.
