You like the way I got you on the man
Sexy mother fucker, girl you are damn,
You like the way I got you on the man
Watch the way I put your mind the body in trash

If you show me don't be scared cu is going down,
Se you girl sexy, sexy, you're so nice around,
What's your name, what's your number,
What's a lay you down,
You go drop it to the floor, baby try me down,
Come and love me, give me love when you're here to
down
Feel the power of my love come to patch me down,

Use the freak, I can tell you you wanna freak me down,
Don't be scared, I don't bite I'm gonna lay you down

Come on girl, give me to go
I won't leave you alone,
I'm so ready to blow, you hot girl got damn yeah
Come on girl, give me to go
I won't leave you alone,
I'm so ready to blow, you hot girl got damn yeah
