Never ride the lonely road, above all, at sundown
For dusk is when the little men melt into the mountains
Melt into the mountains
Melt into the mountains

Taking the Lord's name in vain
'Cause I'm steppin' out on the streets again
'Cause I'm tortured by demons, winged beasts and
carrions
The air is alive with dagger and poisons, almost
moving me to tears
But you and I both know, the streets are paved with
fears

Severe mental fog
Regan's a mad killer dog
London lives up it's arse
These horrors have surely come to pass

I'm twitchin' and sweatin' on the front line
And man's a monster
He's a monster in his own time
He's a monster

I've seen dagger and poison fall
We're fallin' and carnage rules
So search your heart and tear it apart
Rip it apart

Hydra-headed fear
Is all around here
Crack
You're under attack

It seems like you've learnt to live in a bubble
But imagine the trouble
When you fall from your wall and burst your balloon
'Cause it'll happen soon
Yeah it's gonna fuckin' happen soon

Steppin' out on the streets again
Taking the Lord's name in vain

Almost moving me to tears
What you and I both know, the streets are paved with
fears

Electric congestion
Kamikaze pedestrians
What's it all mean?
Can't juggle with Jesus

Dirty green sea
Naked reality
Twenty-four seven
Twenty-four seven

Flapping like a trapped bird
In the seven eleven
Crack
You're under attack

Then you'll see man's your own worst enemy
Peoples hopes and fears
You know they seem
People's hopes and dreams
You know they seem so out of reach to me

You know they seem so out of reach to me
