There's no reason for you to cry
We'll always be around

Lo Fi's in a freakout
You thought they'd kill the fever
Gonna set the ride on the rose
Now we shut down all the hoes

Allstars deal the next move
Won't be the last when we get used
This was more than fun to us
Now the bridge is over, discuss

[Hoo! Ha!]

Whoa, there's no reason for you to cry
We'll always be around
Be true to us, we're true to you
You know we'll never let you down

Whoa, there's no reason for you to cry
We'll always be around
Forget the past, your fears won't last
Now the door is open wide

Free is running the chaos
It never was a great loss
Like silence and keepin' it real
They never thought how we'd feel

Race the sun to the salt lake
The way we feel is no mistake
It's the reason why we're still around
Now the rest gotta savage the sound

Whoa, there's no reason for you to cry
We'll always be around
Be true to us, we're true to you
You know we'll never let you down

Whoa, there's no reason for you to cry

We'll always be around
Forget the past, your fears won't last
Now the door is open wide

There's no reason for you to cry
We'll always be around
Be true to us, we're true to you
You know we'll never let you down

Whoa, there's no reason for you to cry
We'll always be around
Forget the past, your fears won't last
Now the door is open wide

Whoa, there's no reason for you to cry [there's no
reason, there's no reason]
We'll always be around
Be true to us, we're true to you
You know we'll never let you down [we'll never let you
down]

Whoa, there's no reason for you to cry
We'll always be around [we'll always be around]
Forget the past, your fears won't last
Now the door is open wide

Never let you down [there's no reason, there's no
reason, ohhhhh]

Never let you down
We'll never let you down
Always be around
The door is open wide

Lo Fi's, you thought they knew
You thought they knew
Allstars, you thought they knew
You thought they knew
(repeat 3x)
