Na na na na....

So there's an angel at your shoulder,

And she is watching over you

She is fragile and small,

And she is rarely in the new

It's such a perfect view

She sees everything you do

So it's no surprise

She knows when I am in the room

So if i see that angel i will break her f**king neck

Chorus:

Angel, I know you are a friend

But all good things come to an end

So I think maybe you'll agree...

Wings are such an asset,

To an angel on the run

An essential part to play and,

The role of the guardian

But everybody knows it ain't no secret what happens

When an angel flies a little too close to the sun

So if you see that angel you can tell her this for me...

Chorus

The angel gets what the angel wants x7

Woah...

Angel I know you are a friend

But all good things come to an end

So you can leave in peace for me

Or you will leave here on your knees

Angel I know you are a friend

But all good things come to an end

So you can leave in peace for me...
