It's getting late, I missed your call  
I haven't heard from you at all  
For all that shit I put you through  
Here's my heartfelt thanks to you

Through all that's good and bad  
You're the best thing I ever had, IOU

Sweetheart, mother to my girls  
Your softest touch cures all my ills  
When I got down you came through  
Here's my lifelong gratitude

Through all that's good and bad  
You're the best thing I ever had  
In those times when I might dwell  
You're there to catch me when I fail, IOU

In the end of days when the lights will fade  
I will hold you  
I am here to lift away your fear  
I will owe you

Through all that's good and bad  
You're the best thing I ever had  
In those times when I might dwell  
You're there to catch me when I fail, IOU, IOU, IOU
