You're the king of downtown and  
Nothing left to say  
Cause you bled all believers then you  
Washed it away

You're the king of downtown  
And your jesters have stayed  
But you've got nothin' comin'  
Cause you got nothing left to say  
Cause you're down

Chorus:  
Can you take it? Gonna feel alright? Do you feel  
Allright?

All's left forsaken and  
You go back to Idaho cause

You're mommy is waiting  
You've got nothing left to show

Can you feel it? Can you feel alright? Does it feel?  
Can you take it? Can you take it down? Does it feel?

They had you to believe in  
But you went away  
Did you give them time?  
It's good you went away

Gonna take it? Gonna take it down? Gonna feel  
Do you feel it? Do you take it down? Do you feel at all?
