thinking off your skin
motor off your mouth
turning on your friends
turn your mother out
you were so in with the out crowds
and the cooler heads
hey
now look who's back in town
we won't say that you failed
the cooler heads reveal
you can fall in with the fall out
go ahead and blend
there ain't much to love about
you can blend in with the crowds of crown
and the cooler heads
you were so in
you were so out
you dun know when
you were so out
you were so in with the out crowds
and the cooler heads
thinking off your skin
motor off your mouth
turning on your friends
turn your mother out
you were so in with the out crowds
and the cooler heads
