I don't care a shit I only want to be dead  
I don't care that makes neither as makes it  
Neither like will finish only to enjoy your death  
For that the law indicate eye for eye

Dies  
Gay

In the past you made me much bad  
You abused of my and of my people  
I gave you every thing and all my heart  
And I was rewarded with the betrayal

But the show it should begin  
Because the snake speaks for my hearing  
And tells me  
Kill them, kill them, kill them!

Dies  
Gay

A dark night me truth to appear  
And under the shine of my weapon kneeling you  
begged pity  
Then I will kill to all your family  
But to the boy I will leave I live

Culebra  
Work malicious.
