Keep your girlfriend away from me
Just advice I'm givin you for free
Wanna have everything I see
So keep your girlfriend
Keep your girlfriend
Keep your girlfriend away from me
Got no sense of comradery
I've got a couple hits of ecstasy
So keep your girlfriend away from me
I will
Here we go, yeah I know how to get it
I will
Got no code and I wanna push the limits
I will
Get so low and I wanna wallow in it
I will
So keep your girlfriend
Keep your girlfriend
Keep your girlfriend away from me
Keep your girlfriend away from me
Don't talk to me about honesty
Don't talk to me about loyalty
Don't talk to me about a goddamn thing
Just keep your girlfriend away from me
I will
Here we go, yeah I know how to get it
I will
Got no code and I wanna push the limits
I will
Get so low and I wanna wallow in it
I will
So keep your girlfriend
Keep your girlfriend
I will
Now you know, I've exposed my intention
I will
Got no soul, and I love my infection
I will
Wanna know how it feels when she gives in
I will (x4)
Keep your girlfriend away from me

Keep your girlfriend away from me
Yeah, we're comin' to the time when we reach the bitter
end
Everything is ripped and broken
Everything is cracked and bent
You won't ever know my mind
You won't ever comprehend
This is nothing to do with your girlfriend
I will (x16)
Keep your girlfriend away from me (x3)
Keep your girlfriend (x5)
I will (x4)
Keep your girlfriend away from me
