Single histories of destruction?  
Single apocalyptic facts?  
Again they unite the man and the beast  
With the idea of exterminating  
The demoniac legions  
Make armies around the world  
And I e at art of black magic  
Born the fields of the death

Legions Of Beelzebub

Tablets as in cradle of pigs  
You kill them they clamour mercy  
Screams of desperation  
They predict the final sigh  
Bodies in total malnutrition  
Scent to bornt and insolent meat  
Left eyes with look ultratomb  
They predict the final trial

Legions Of Beelzebub

There is no longer escape  
The torture bleeds and death  
Cannot be avoided  
Vengeance satanic taking the power  
God has never existed  
The humanity's in flames  
And hung for the evilusion  
We will be food for worms

Satan destroys!
