I never said now
I never said now
I never said now
I never said now

I never said now
I never said now
I never said now
I never said now

I never said I wouldn't lie to you
I never said that what I've said was true
I never said I wouldn't lie to you
I never said that what I've said was true

Real strong now manipulated
Real strong now manipulated
Real strong now manipulated
Real strong now, real strong now

I never said now
I never said now
I never said now
Why don't you sit down?

I never said now
I never said now
I never said now
I never said now

I never said I wouldn't lie to you
I never said that what I've said was true
I never said I wouldn't lie to you
I never said that what I've said was true

Real strong now manipulated
Real strong now manipulated
Real strong now manipulated
Real strong now, real strong now

Real strong now manipulated
Real strong now manipulated

Real strong now manipulated
Real strong now, real strong now

I never said now
I never said now
I never said now
I never said now

I never said now
I never said now
I never said now
I never said now

I never said I wouldn't lie to you
I never said that what I've said was true
I never said that what I've said was true

Real strong now manipulated
Real strong now manipulated
Real strong now manipulated
Real strong now, real strong now

Real strong now manipulated
Real strong now manipulated
Real strong now manipulated
Real strong now, real strong now

I never said I wouldn't lie to you
I never said I wouldn't lie to you
I never said I wouldn't lie to you
