My king, I'm humbled before you  
I bow  
Moods like you're pulled by the moonlight  
Somehow

How is the language we're speaking  
The same?  
Shape shifter, have you discovered  
A change?

Why does the soul hallucinate?  
I've got control, I shift my shape

Your eyes they swell like a riot  
Deranged  
Tomorrow you're laughing like a child  
Again

Why does the soul hallucinate?  
I've got control, I shift my shape  
If flesh and bone do not contain  
The mirrors don't reflect my face

Psycho, you killer, you cancer  
My friend  
Why don't you give me an answer  
For when?

When you'll let it go  
When you'll let it go  
When you'll let it go  
When you'll let it go

Why does the soul hallucinate?  
I've got control, I shift my shape  
If flesh and bone do not contain  
The mirrors don't reflect my face
