"Destruction Time Again"

Climbing a step too high
Falling so hard
Moving a step too close
Not sensing your fear
I can't feel, your personal sphere
I've never known ho to behave
Our time I sup
One victim at a time
Couldn't sense what
Others felt
I will never be part of
Your little game
It's Destruction Time Again
I didn't know, your personal fears
I'll never know your inner self
I limited our time on this earth
