Visit "[Jonestown Slumber Party](#)" on [MotoLyrics.com](https://MotoLyrics.com)

From the wailing in a gospel choir  
To the massacre in Jonestown  
Across the street in a sunday school  
They march on his name

Justify the murder of millions  
In the name of a lie  
Justify the control of billions  
Oppression style

Trying  
To find a way out of  
Dying  
There is no way out  
You can't win  
Still you march on in his path

In the name of anything except  
In the name of the human race

Evolution took a halt  
When they started to walk in his footsteps  
Evolution took a halt  
'Til the day we trust ourselves
