So convinced and so convincing  
Missionary on a mission  
To convince you of "gods" greatness  
But he falls short  
Science triumphant

And on the first day I know  
Man created "god"  
A bible in hand  
Repeat offender  
Disguised as doing good

Le me show you  
The true left path  
Into science  
And evolution  
Who needs more laws  
Then those voted for the only "good book"  
Is the one by Darwin

And on the first day I know  
Man created "god"  
A bible in hand  
Repeat offender  
Disguised as doing good
