

Lock And Key "Ammonia"

Visit "[Ammonia](#)" on MotoLyrics.com

Let's take this chance.
Let's forget about all we've learned.
We'll learn to live like we used to when we were young.

Extinction,
extinction of the mind.
Free will, the thing that used to bind us.
Bind us together with open minds.
No preconceptions, just desire to live and learn on our
own.
We'll try.

Let's fill the tank. Let's run this block into the ground.
We'll live harder lives, at least we'll never forget them.

Extinction,
extinction of the mind.
Free will, the thing that used to bind us.
Bind us together with open minds.
No preconceptions, just desire to live and learn on our
own.
We'll try.

Just because we've tried once over.
Doesn't mean we can't start over
