cracking skulls, tearing flesh. have another heart  
attack. send 'em in, send 'em in, why don't you try  
pushing all the goddamn buttons. maybe just one of  
them will suffice. go back to the golf course. if the shoe  
fits, fuck it. confidence minimally confirmed, the more  
unsuspecting conclusions occur. self model shoe-  
switching correlation may be dyslexic. folded and  
removed, all signs of any research.  $2 + 2$  not equal to  
4, hours and hours of frequency tampering. not to  
mention variables, reconstructing codes of silence.  
when flies ate men, the procrastinating never started.
