You say you're not going anywhere
Does that mean time is the conjurer here?
I sold, but I paid for
By our old friend fear
Unacceptable to do exactly what I feel
When every fibre compels me to reveal
My love can imagine questions and answers
One way or another can reveal
Cause there's nowhere I can see a sign
Inscribed for me with fate's design
And if I've learnt something
It's back to this moral code
Gestured split direction
Along the same old road
My love can imagine questions and answers
One way or another can reveal
Cause there's nowhere I can see a sign
Inscribed for me with fate's design
For everything there's a price to pay
But do we ever realize the day?
My love can imagine questions and answers
One way or another
