Bring me my raincoat
And a cup of something warm
Smoking cigarettes at your doorsteps
Looking like I don't care
Trying to act younger but I'm four years older
Red stripes hanging over your hair
I'm no good for you
And you know it too
Getting stoned getting fat in your rented flat
Staring at the tv screen
Sweating cold turkey and a funny hat
Most annoying show you've ever seen
I'm no good for you
And you know it too
There's a limit to what nature can do
Ahahahahahahaha.....
I'm no good for you
And you know it too
Smoking cigarettes at your doorsteps
Sticking here like glue
Another one aimless fight
No one's got the right to turn your pink world blue
I'm no good for you
And you know it too
There's a limit to what nature can do {repeat til end }
