"We're ... we're scientists we're professional fulltime revolutionaries"

Useful phrase is always the truth

Eye for eye and tooth for tooth

Useful phrase is always the truth

Look at me I'm the living proof

Just how sweet can junk food be

How far can man see

Sports a clever thing to watch

And so are the daily stocks

Chorus:

This is my fate the things I hate

Always on time and never late

Using things I found amusing

Got it all without my choosing

Using things that made me shiver

Push my brain down through my liver

Fickle human is always a liar

Fickle human now for hire

Fickle human easy target

Fickle human an open market

Chorus x 2

"I now know that I'm going to be uncomfortable through this whole project

from beginning to end

And I though I wasn't going to be. I thought I was going to be

uncomfortable yesterday morning, like when we started.

Everyone just sorta given me some sympathy for just being

In a difficult situation, but it didn't bother me at all, because I

knew it was going to be like. But what I didn't realize, was

that later in the afternoon, it was still going to be like that.

Now my right leg is still asleep.

That's the way it's going to be, and all of this equipment is contradictory."

Chorus x 2
