"Ring Around"

Visit "[Ring Around](#)" on MotoLyrics.com

And now, I'm walking toward the light
I've kept my eyes on all this time
I'm happy you're still by my side

Put a ring around that finger
Put a ring around that finger
Put a ring around that finger

Because I am through with the cocaine and telling lies
I put down that junkie pain and realized
It's you I have been waiting for
It's you I have been waiting for

Put a ring around that finger
Put a ring around that finger
Put a ring around that finger
Put a ring around that finger
Put a ring around that finger
Put a ring around that finger
Put a ring around that finger
Put a ring around that finger...
