I walk around at school,  
But she doesn't see me,  
Why do I even try,  
Because she doesn't notice me,  
She can't see me,

[Chorus]  
She looks right through me,  
I'm invisible,  
She walks right through me,  
I'm a ghost,  
I don't exist to her,  
She can't see me,

The same as yesterday,  
She doesn't see me,  
I still try too hard,  
To get her to notice me,  
But she still can't see me,

[Chorus]

Why can't she see me,  
She looks right through me,  
I'm a ghost to her,  
I might as well be,  
Because she can't see me,

[Chorus]

I'm a ghost,  
I might as well be,  
I might as well be,  
I might as well be,  
Nothing to her.
