"Who She Is"

A new girl at school,
She really blows my mind,
And I really think she's fine,
I like the way she looks,
She's perfect in my mind,
I wanna carry her books,
And find the classes she can't find,

[Chorus]
I wanna tell you who she is,
I think she's really cool,
I hope she won't be his,
I know he's just a fool,

She really thinks I'm hott,
She likes all that I got,
She knows I'm into her,
And she wants to know me better,
I wanna ask her out,
She'll say yes without a doubt,
We're going out tonight,
I know this will be right,

[Chorus]

Me and the new girl are perfect for each other,
Me and the new girl are perfect together,
I'll tell you who she is,
I'll tell you she won't be his,

[Chorus]

I know we should be together,
I know we're right for each other,
She's perfect in my mind,
Nothing wrong that I can find,
Me and the new girl.
