After the love has gone
It's raining again (It's raining again)
Shadows of loneliness
It's raining again (It's raining again)
And all that I am waiting for
Is you by my side (It's raining again)
After the love is gone
It's raining again
It's raining again

Right Baby, me say no lies, Baby
Me want to pull off your head so higher live your life
Baby
Say goodbye, Baby, say me say no lies Baby
I want to see you with your pride and your dignity
So if it's raining to the left
And if it's raining to the right
Come straight... you and see this on light
If you look, you look so hard and ... something where
you like
Gimme a day, I know do it to make you fly like a kite

Dance with me
And you can romance with me
I need to live no night to take a chance with me
Say what you want from me
I am a dreadlocks

I'll be in a trip is satisfy your mind and body
Say... ..

Cause I give you this ska loving and a skylarck
If we try really hard we can make a new start
Tell him that you stop..... everything you want

We shared a love I never knew before
And then it was one of these rainy days you left me
Since you've been gone my life is so empty
I thought our love would last forever
But now I know, only dreams last forever
