I must be mad
To think that you will make my way
Cause when I know you will, I know you need
I must be mad
To tell you that I see this things
Cause when I read your mind, I know you believe

I must be mad
I must be mad
In your eyes
I must be mad

I must be mad
To think that you will make my way
Cause when I know you will, I know you need
I must be mad
To tell you that I see this things
Cause when I read your mind, I know you believe

I must be mad
I must be mad...
