Lay down and close your eyes
There's no time left to call your own
Reach for the stars
Oh, now I pray for you, yeah

Tell me to help myself
I can't take anymore
Go on all the days when
They turn their back on you, my friend

And when you're with me
It all feels all right
And when you're with me
It all feels all right

So close your eyes
And drift away
We'll meet again
Another day

Tell me to help myself
I can't take anymore
Go on all the days when
They turn their back on you, my friend

And when you're with me
It all feels all right
And when you're with me
It all feels all right

I remember talking
I remember what you said
I remember having you in my bed

I remember thinking
We were gonna go far
But I never thought we'd reach the stars and

And when this world falls down around you
And nobody even cares
I know you are always there

And when you're with me
It all feels all right
And when you're with me
It all feels all right

And when you're with me
It all feels all right
And when you're with me
It all feels all right

And when you're with me
It all feels all right
And when you're with me
It all feels all right
