### "Laying Still"

am i dead  
or am i just laying still?  
still complicating my thoughts  
about this year  
and how we got here

but we got here  
and i'm so happy that i found you  
when i did  
yeah we got here  
and i'm so happy that i found you  
when i did

will you stay  
or are you just passing through?  
cuz i know you  
and i'm so happy that you found me  
when you did  
yeah i see you  
and i know what we should do

am i dead  
or am i just laying still?  
still complicating my thoughts  
about this year  
and how we got here

but we got here
