i was alive before
before i was alive
i was alive before
before i was alive

and i held your love before
before you had arrived
i knew you long before
in another time

when i was alive before
before i was alive
i was alive before
before i was alive

and you were my love before
long before this time
you were my heart before
before i was alive

but i was alive before
before i was alive
we were around before
before we were alive
