You won't tell yourself you messed it up this time
And I know not to ever take the blame again so
This is all your fault now
I tried and tried and tried
You'll never change

I wish you well
Maybe
I wish you hell
So I'll tell you from these lips you can't kiss
Everything you did just felt so wrong
Now I'm alright
And now you'll never once be missed

I'm so fucking bored with all your empty cries
And you're so fucking mad that I won't care again so
This is all your fault now
You lie and lie and lie
You'll never change

I wish you well
Maybe
I wish you hell
So I'll tell you from these lips you can't kiss
Everything you did just felt so wrong
Now I'm alright
And now you'll never once be missed

So I'll tell you from these lips you can't kiss
Everything you did just felt so wrong
Now I'm alright
And now you'll never once be missed

You said what you said
And you did what you did
You won't live it down
Oh no
I'm not dead like you're dead
I won't sin like you sin
I'm everything you're not

You said what you said
And you did what you did
I'm everything you're not

(I'll) I'll tell you from these lips you can't kiss
Everything you did just felt so wrong
Now I'm alright
And now you'll never once be missed
No, you'll never once be missed
