"Another Road"

Visit "[Another Road](#)" on MotoLyrics.com

All through the night I sat starry eyed
Professing Love to my Girl
and we sang over and over Santa Rosa and peace of
Mind
Another Road to go
All through the night she sat stormy eyed
Expecting lies from her love
But all that came along was a song and a lullaby
Another Road to go

When the holocaust is over and the men begin to
rebuild
Will you raise yourself some children free of lyin'
Keeping up tryin' to find
Another Road to go

Another Road to go
When the holocaust is over and the men begin to
rebuild
Will you raise yourself some children free of lyin'
Keeping up tryin' to find
Another Road to go
