Ya I never knew what I had  
Cuz after you picked up and left my ass  
I was all mixed up like my coke n jack  
And it sounds cliché but I want yu back  
Ya we used to be all that,  
Make the other guys jealous when you held my hand  
Raised well with money to spend,  
But you'd rather spend some time instead  
So cute summer time lovin  
If I was on break, we'd get into somethin  
Music bumpin, in the backseat humpin  
So I jumped in, it was all or nothin  
But now man it's become all bad,  
You werent just a piece of my hometown ass  
You were school on monday, tons of class  
But now I gotta drown it out so I'll fill my glass

Lets go out for a drink and forget  
All the things that we said  
That we know we'll regret  
Lets go out for a drink and forget  
All the things that we did  
When we were wasted

Cuz when school gets out and we head back home  
We all got a girl we call on the phone  
But for me it's different cuz my girl is gone  
She was mine once but she had to move on  
On my mind once turned to singin love songs  
Had a crush so long, how could I ever be wrong  
My high school hottie, gave me a playlist  
Told me that she'd love me even if I wasn't famous  
And the music, we made it, with no guitars  
The strings that she plucked were the ones in my heart  
It was great, the good times always are  
Late night kissin on the hood of my car  
We said we couldnt wait for college to start  
But either end of the state is what tore us apart  
And they say there's a lot of other fish in the sea  
But there's no other fish like you for me

Lets go out for a drink and forget  
All the things that we said  
That we know we'll regret  
Lets go out for a drink and forget  
All the things that we did  
When we were wasted
