We lounge  
Gimme the key to the town  
Ima do a few things thatll make you proud  
Lock it right down cuz you know I know how  
What comes around just makes me wanna get down  
20 years now but I'm not a man yet  
I'll always be a kid no matter how old I get  
And what's next I got some medicine  
That I'd like to schedule in to my head again  
It makes me feel alright ya me n my friends  
Cuz it aint no fun, if the guys can't attend  
So sit and kick it, and cut the ticket in half  
Cuz the only place were goin is to heaven and back  
With some seven and jack, creative juices on tap  
Lounge all day, and stick around for the nap  
What easier done than said,  
That's my motto in life, cuz when I roll outta bed  
I'm always on the right side, never the left  
And the lens in my specs, stay tinted real fresh  
Lace up my mesh it's as good as it gets  
Fuck yes, livin legends so we lounging the best

Cuz we lounge all day, let the guitar play  
And the strings keep tellin us that we're on our way,  
yeah  
Cuz we lounge all day, let the guitar play  
And the strings keep tellin us that we're on our way,  
yeah

We lounge  
Whatup, to my beach bummin fellows,  
Guitar strummin mellow from the bass to the treble,  
If she said bye to you then I gotta say hello,  
My games on par but it aint nothin special  
In the shade and the sun at the very same time  
Thought about it once so I'll never think twice  
Alright, I'm feelin comfy as fuck  
Glass half full just like my red cup  
If you drink to get drunk then I'll follow you up  
Lush, let the green grass grow  
Live life slow cuz we got time to blow

And let the good times roll, down the hometown road  
So lemme join you, me n my buddies  
Take it from me, happy go lucky  
It's lovely loungin like we know we should  
Let the guitar play like it always would  
What's good don't stop just go in slow motion  
Lifes a lot better with the drink I'm holdin

Cuz we lounge all day, let the guitar play  
And the strings keep tellin us that we're on our way,  
yeah  
Cuz we lounge all day, let the guitar play  
And the strings keep tellin us that we're on our way,  
yeah
