Love when it's sunny  
Love when it snows  
Love the spring time and the reggae shows  
Hard to find time like any college kid knows  
Ya I'll smoke weed but I'll never do blow  
Use facebook to promote my shows  
Never go as low as to spit my flow  
Like the mainstream hoes on the radio  
This practice drives me crazy  
Rebelution, pac, and shwayze  
Pop an adderal when I'm feelin lazy  
Doesn't matter all of the critics hate me  
And so what you'll never be my lady  
Only things I'll ever love are the folks that made me  
I'll stay bright now cuz the futures shady  
And when they ask who runs those routes

She came from overseas  
Be a star on the boulevard  
She wants sex on the beach  
We can share it's only fair

I got paradise on call  
It's ours, it's ours  
She got a little taste and she wants more  
Some more  
We Run LA

Yaaaaa what's next, who knows  
Got my degree cuz they told me so  
Always stay strapped with my macbook pro  
And my iphones cracked so the apps run slow  
I can never stand still always on the go  
Take myself seriously? hell no  
The pills that the doc prescribes me to take  
Contain chemicals that makes me me wanna create  
You can stroke my penis any day  
What a stroke of genius is what they'll say  
But up until then I'll just be a cliché  
Another college kid with his own mixtape  
So vee la say, say la vee,

Describe me as havin deceptive speed  
Young white boy, just a square saltine  
Coolest thing to hit the street since it rained last week

WHERE

My friends know where I be  
Where  
Upstairs in the VIP  
That's right  
In the vip  
Upstairs with will greg and e  
That's right
