Alone see you  
it's been too late  
it's been too late to meet you  
i will never forget you

playing ten years  
and you don't get  
you got the blues inside  
and your music is art

there's no time  
he doesn't have time  
just live for playing guitar  
the old man playing guitar

you gotta think away, think away  
over and over  
you gotta demonstrate again and again  
i cannot hide  
everlong, you'll play everlong  
everlong, you'll play everlong

you gotta think away, think away  
over and over  
you gotta demonstrate again and again  
i cannot hide  
everlong, you'll play everlong  
everlong you'll play everlong  
time
