As i belong to the earth  
i feel the grains to fall, (and...)

since i see you  
crumblely explote

I lost and they pass me by  
they pass me by they pass me by

they conquered my unreal side  
unreal side my stupid mind

Since I'm On  
the earth  
has its own war

Since I'm On  
the earth  
has its own war

but they  
pass me by, pass me by pass me by,  
pass me by,

but they  
pass me by, pass me by pass me by,  
pass me by
