It's just another day
Just another day
It's just another day
Just another day

A critical word's a betrayal
But the judge won't state my crime
When I find myself on trial
I always end up doing time

Another day on the track
Another day on my back

The sky looks blue
And all but I'm tied to the track
She pretends that
She can't hear me falling apart

Listen to me now
'Cause all I need is you
To let me off my bed of nails

It's just another day
It's just another day
It's just another day
It's just another day
