"Losing You"

Visit "[Losing You](#)" on MotoLyrics.com

Was a foul with my money
And I lost every dime
And the sun stop shining
And it rained all time
All it did set me back some
But I made it through
But I never get a word losing you
Do you know how much mean to me
Should have told you cause it is true I get over losing
anything
But I will never get over losing you

When you are young and there is time
You forget the past you don't think that you will
But you do but I know that I don't have time enough
But I will never get over losing you

I have been cold I have been hungry
But know for a while I guess most of my dreams have
come true
With their home here around me no peace to have fun
Cause I will never get over losing you
No I will never get over losing you
