I know you watch me when my lights are low
I see reflections in my window
You're getting ready for a private show
It's the point of no return
It's easy setting inhibitions free
When I'm close but still out of your reach
Restricted entry and I hold the key
To fulfilling all your dreams
I know it all along
What it takes to turn you on

Chorus:
Do you like to watch?
When I'm letting my steam off
Do you like to watch?
When my rhythm gets red hot
Do you like to watch?
My body reach take-off
Do you like to watch?

In my mind I see you touching me
It makes me wanna push the boundaries
You got a sweet tooth for some wild honey
I'm your fantasy queen bee
I know it all along
What it takes to turn you

Chorus
Do you, do you
Do you like to watch?
Do you, do you
When the pressure's on

Yeah, turn up the pressure
Can you take it? Can you handle what I've got for you?

Chorus
