Simple acts of kindness bring tears to his eyes
Yet he's as strong as any man (that is) alive
When he takes me in his arms, he makes time stand
still
He'll be there if I need him when nobody else will

My love, he's fearless
My love, he's brave
When he took me in his heart
I was saved
My love, he's fearless .. fearless

He's dependable and patient, he'd give you his
place in line
He's never in a hurry, he knows it's a waste of time
He never raises his voice, he doesn't criticise
If you look at him with hatred, you find love in his eyes

My love, he's fearless
My love, he's brave
When he took me in his heart
I was saved
My love, he's fearless ... fearless

Just to hold him
I would follow him anywhere
When we're kissing
He is like water, the earth and the air

My love, he's fearless
My love, he's brave
When he took me in his heart
I was saved
My love, he's fearless ... fearless
