I feel your eyes burn through me
Spin this wheel, make destiny
If you walk the walk, talk the talk
You might get lucky
I could dance for you now
Would you like me to?
You can look, you can touch
It's up to you
Anywhere you wanna go
Anything you wanna try
Any dream you have
I'll put stars in your eyes (I can help realise)
Anytime you feel alone
Place your bet we're good to go
Make a wish the world is your sister tonight
Take a chance, you can choose
Ask your heart to win or lose
The stakes are high, are you game?
I wanna play with you
I could dance for you now
Blow your mind away
You can look, you can touch
It goes both ways
Anywhere you wanna go
Anything you wanna try
Any dream you have
I'll put stars in your eyes (I can help realise)
Anytime you feel alone
Place your bet we're good to go
Make a wish the world is your sister tonight
It goes down
Get down
Throw the dice
Take a gamble I'll be nice
