I know you said when I left
I'd regret every word, every breath,
Every step, every minute without you
Go do what you have to

I know I said you were wrong
I'd move on, it was only a matter of time
Until I'd make it without you
This wasn't about you

I said I needed space,
A change of place,
To go out and build my life

[Chorus:]

But I don't wanna live without you anymore
And what I wouldn't give to get us back to the way it was
before
I admit I was wrong all along
Now you're gone with all that I've been livin' for
And I don't wanna live without you any more.

And for a couple of nights I was fine
I was high on the wine, and the lights
And my new found freedom that I thought I needed

But the cold lonely room that I headed home to felt like
a tomb
I just stared at the ceiling, what an empty feelin'
And baby I apologize, tell me it's not too late

[Chorus:]

Cause I don't wanna live without you anymore
And what I wouldn't give to get us back to the way it was
before
I admit I was wrong all along
Now you're gone with all that I've been livin' for
And I don't wanna live without you any more.

I don't wanna live without you anymore
And what I wouldn't give to get us back to the way it was
before

I admitt I was wrong all along
Now youre gone with all that I've been livin' for
And I dont wanna live without you any more.
Oh I dont wanna live without you any more.
