Shout shout let it all out these are the things i can do
without so come on im
Talkin to you so come on

You know your beaten when your legs are stiff your lips
are frozen i but a nut
On your tits

Chorus-
i will kill you i want to kill you get with her and then your
dead i will
Kill you i want to kill you

Cut off your not and glue them to your head your just
insane i made your death
Bed...as i listen to the dripping water i make believe
that i never forgot her
Leaving me to burn in the fire as i listen to the dripping
water

(chorus)
