Wanna be a popstar
And move your body on
And move your body on
And move your body on
Wanna be a popstar
(Wanna be a popstar, and move your body on)
Everybody's feeling better when they hear the sound
Sound will be there, sound a rhythming
Don't you lose around
Get the space up to the music, that's all go around
I swear it's seemed so better when we say
Wanna be a popstar
And move your body on
And move your body on
And move your body on
Wanna be a popstar
And move your body on
And move your body on
And move your body on
I can see your body moving, I can feel the hits
In everybody something dancing in the street
Music put's all on fire, but no I feel
I swear it's seemed so better when we say
Wanna be a popstar
And move your body on
And move your body on
And move your body on
Wanna be a popstar
And move your body on
And move your body on
And move your body on
Everybody come on and say
Everybody come on and say
Isn't best? Oh yeah!
(everybody come on)
So don't you come alone
So don't be shy, just try
(wanna be a popstar)
Everybody hear this gap to say?
Get up get up everybody everybody
Get up get up everybody everybody
Get up get up everybody

I swear it's seemed so better when we say
Wanna be a popstar
And move your body on
And move your body on
And move your body on
Wanna be a popstar
And move your body on
And move your body on
And move your body on
Wanna be a popstar
And move your body on
And move your body on
And move your body on
Wanna be a popstar
And move your body on
And move your body on
And move your body on
(And move your body)
